PROFESSIONAL SUMMARY

Backend focused Full Stack Developer with 5+ years of experience building and maintaining Laravel based production systems, REST APIs, and scalable admin platforms. Experienced in database optimization, payment gateway integrations, Docker based development workflows, and maintaining live business critical applications. Strong hands on experience with Laravel, MySQL, React.js, and API architecture with growing expertise in Python and cloud native development.

TECHNICAL SKILLS

Programming Languages: PHP, Python, JavaScript, HTML5, CSS3, SQL

Frameworks & Libraries: Laravel, Django, React.js, Vue.js, Inertia.js, jQuery

Backend & API Development: RESTful APIs, MVC Architecture, Authentication & Authorization, Third-Party API Integration

Databases: MySQL, PostgreSQL, Database Optimization, Schema Design, Query Optimization

DevOps & Infrastructure: Docker, CI/CD Pipelines, Redis, AWS (Cloud Practitioner)

Frontend & UI: Tailwind CSS, Bootstrap 5, Material UI, DOM Manipulation, AJAX, Responsive Web Design

Tools & Platforms: Git, GitHub, Composer, NPM, Postman, Jira, Twilio

Methodologies: Agile, SDLC, Debugging, Code Review, Project Management

PROFESSIONAL EXPERIENCE

Zap Power FZCO — Dubai, UAE

Sep 2023 – Present

Software Developer

- Architected and maintained scalable backend infrastructure for a mobile application serving active subscribers, ensuring 99%+ uptime and optimal performance within a 5 person cross functional engineering team.
- Designed and developed RESTful APIs with average response times under 200ms, enabling real time data exchange between frontend and backend and directly improving user engagement metrics.
- Integrated Google Maps API for real time, accurate location based services across energy system tracking and delivery management.
- Integrated multiple payment gateways (Stripe), ensuring 100% secure payment processing and streamlining subscription plan management across thousands of transactions.
- Implemented push notification services using Firebase, keeping customers informed about delivery updates, energy usage insights, and subscription status changes.
- Designed and maintained a feature rich Admin Panel managing customer accounts, orders, subscriptions, and energy systems, reducing manual operational overhead by 40%.
- Containerized development environment using Docker, improving team onboarding speed and ensuring consistent environments across development and production.

Optimum Tech — Faisalabad, Pakistan

Aug 2022 – Jun 2023

Laravel Developer

- Developed and maintained scalable web applications using Laravel MVC architecture, collaborating within an Agile team.
- Delivered mission critical zero downtime migration of a Dubai based Real Estate CRM system serving thousands of agents, upgrading from Laravel 5 to Laravel 9 without disrupting live production data or agent workflows.
- Optimized SQL queries and implemented caching strategies, reducing average page load times by 30% and API response times from 800ms to under 250ms.
- Designed and developed RESTful APIs for mobile and web app backends, improving data exchange reliability.

- Developed Employee, HR, and management systems for a Housing Society project, handling complex relational data across departments.
- Implemented security hardening measures including input validation, CSRF protection, and role based access control across all applications.

Rank Visely — Faisalabad, Pakistan

Apr 2021 – Aug 2022

PHP / Laravel Developer

- Developed 5+ full-stack web applications using Laravel (backend) and JavaScript, Bootstrap, and Tailwind CSS (frontend) for clients across e-commerce, SaaS, and CMS sectors.
- Built and maintained SaaS subscription platforms and a custom e-commerce site handling dynamic product catalogs, cart logic, and order management for 500+ products.
- Designed and optimized relational MySQL databases, reducing query execution times by up to 40% through indexing and schema improvements.
- Integrated third-party APIs (payment, SMS, shipping) and implemented JWT based authentication
- Conducted cross browser and cross device QA testing ensuring consistent UI/UX across Chrome, Firefox, Safari, and mobile platforms.

OOP Tech — Faisalabad, Pakistan

Mar 2020 – Apr 2021

Web Developer

- Designed and developed responsive, cross-browser compatible websites and web applications for clients in India and Pakistan.
- Built an Employee Management System for an India-based exam support platform, handling employee records, attendance, and reporting for 200+ staff.
- Developed a Learning Management System (LMS) for employee training and development, supporting course management, progress tracking, and assessments.
- Wrote clean, efficient, and scalable code and provided hands on client training for ongoing system maintenance.

KEY PROJECTS

Real Estate CRM — Dubai Property Firm | Laravel 9, MySQL, REST API, Query Optimization

- Upgraded and maintained a large scale CRM system serving thousands of real estate agents across Dubai. Performed zero downtime Laravel 5 to Laravel 9 migration, optimized critical database queries reducing load times by 30%, and added new modules without disrupting live agent data or workflows.

Zap Power Admin Panel & Mobile Backend | Laravel, REST API, Firebase, Google Maps API, Stripe, Docker

- Built the full backend and admin panel for an electricity and battery subscription platform. REST APIs average under 200ms response time. Integrated Google Maps, push notifications, and multiple payment gateways. Containerized with Docker for consistent deployments.

Food Delivery App Backend | Laravel, REST API, Twilio SMS API, MySQL

- Designed and developed the complete backend API for a food delivery mobile application including order management, real-time status updates, and Twilio SMS notifications for delivery tracking.

SaaS Subscription Platform | Laravel, Stripe, Vue.js, MySQL

- Built a multi-tenant SaaS platform with subscription billing via Stripe, user role management, and a dynamic dashboard for customers and admins..

EDUCATION

BS (Hons.) Computer Science

2018 – 2022

Riphah International University, Pakistan

CERTIFICATIONS

- **AWS Cloud Practitioner Essentials:** AWS Training and Certification (Dec 2024 – Jan 2025)
- **Project Management:** Great Learning (Aug 2024 – Sep 2024)
