

Talha Rashid

Full Stack Developer | PHP | Laravel | React | Vue.js | Python
+971 55 376 0071 | imtalharashid@gmail.com | [GitHub](#) | [LinkedIn](#) | [Portfolio](#) | Dubai, UAE

Professional Summary

Full Stack Developer with **5+ years** building production systems that actually scale. At Zap Electric Dubai, I'm the sole developer behind a live platform serving **1,600+** subscribers, **65+ REST APIs**, Stripe billing, and full ownership from schema to cloud deployment. Known for solving critical production issues quickly, working independently, and communicating effectively with non-technical stakeholders. Previously at Optimum Tech, delivered a zero-downtime **Laravel 5 to 9** migration for a Dubai real estate CRM serving thousands of agents, cutting load times by **30%** without touching live data or agent workflows.

Technical Skills

Programming Languages: PHP, JavaScript (ES6+), Python, SQL

Frameworks & Libraries: Laravel, React.js, Vue.js, Inertia.js, jQuery, Django

UI & Styling: Tailwind CSS, Bootstrap 5, Material UI, HTML5, CSS3

Backend & Database: MySQL, PostgreSQL, RESTful APIs, WebSocket, Redis / Caching, Query Optimization

Integrations & Services: Stripe, Google Maps API, Firebase, Twilio, SMTP / API Email

Cloud & Deployment: AWS (EC2, S3, RDS, Lambda, CloudFront), Docker, GitHub Actions (CI/CD), Hostinger

Tools & DevOps: Git / GitHub, Postman, Composer, NPM, Jira, Agile / Scrum

Professional Experience

Software Developer Zap Power FZCO | Dubai, UAE

Sep 2023 – Present

- Chose the architecture and tech stack from scratch, selected Laravel for the backend, designed the full database schema, and built the entire backend solo with **65+ RESTful API** endpoints powering the platform live on Hostinger, handling **1,600+** current user in test.
- Built a **React** dashboards for **customers, admins, and staff**, each rendering only the views and actions permitted by their role. All **role based access** control enforced server-side via Laravel middleware and policies, ensuring no client-side bypass was possible.
- Integrated **Stripe** for subscription billing and **Google Maps API** for real-time driver route tracking, managing the full integration lifecycle from sandbox to live production.
- Implemented **Firebase push notifications** for delivery updates, energy usage alerts, and subscription status changes, keeping users informed without manual intervention.

Laravel Developer Optimum Tech | Faisalabad, Pakistan

Aug 2022 – Jun 2023

- Independently built and maintained **4–5 large-scale SaaS ERP & CRM systems** including a marriage hall booking platform and car carrier management system, working solo with full ownership from requirements to deployment.
- Delivered a **zero-downtime Laravel 5→9 migration** of a live Dubai real estate CRM serving thousands of active agents, refactored the entire codebase, resolved breaking changes, and kept production data and agent workflows fully intact.
- Optimized critical SQL queries and introduced caching strategies, cutting page **load times by 30%** and dropping API response times from **800ms** to under **300ms** on live traffic.
- Built a **e-commerce bidding platform** with a Vue.js admin dashboard, allowing customers to list items for sale and users to place bids. Built the entire REST API backend powering both **iOS and Android** apps, with **Twilio SMS** notifications and social authentication via **Google OAuth and Facebook Login**.
- Developed an end-to-end **law firm directory platform** enabling thousands of lawyers to connect with clients. Integrated a **SOAP API for billing** with full sandbox testing and implemented **webhooks** to handle billing failures.

PHP / Laravel Developer *Rank Visely | Faisalabad, Pakistan*

Apr 2021 – Aug 2022

- Developed **5+ full-stack web applications** using Laravel and JavaScript / Tailwind CSS for clients across e-commerce, SaaS, and CMS sectors.
- Built and maintained **SaaS subscription** platforms and a custom e-commerce site handling dynamic product catalogs, cart logic, and order management for **500+ products**.
- Designed and optimized relational MySQL databases, reducing query execution times by **up to 40%** through indexing and schema improvements.
- Integrated third-party APIs (payment, SMS, shipping) and implemented **JWT-based authentication** across all applications.

Web Developer *OOP Tech | Faisalabad, Pakistan*

Mar 2020 – Apr 2021

- Designed and developed responsive, cross-browser compatible websites and web applications for clients in India and Pakistan.
- Built an **Employee Management System** for an India-based exam support platform, handling employee records, attendance, and reporting for **200+ staff**.
- Developed a **Learning Management System (LMS)** supporting course management, progress tracking, and assessments for employee training.

Key Projects

Eden Fort CRM *Dubai Property Firm | Optimum Tech*

Laravel CRM with zero-downtime version migration, multi-role access control, optimized query layer, and live module expansion for thousands of Dubai real estate agents.

Stack: *Laravel, MySQL, REST API, Query Optimization, Role-Based Access Control*

Energy Management Platform *Zap Power FZCO*

End-to-end energy services platform with admin dashboard, 65+ REST APIs, Stripe subscription billing, Google Maps driver tracking, and Firebase push notifications.

Stack: *Laravel, MySQL, REST APIs, Stripe, Google Maps API, Firebase, Docker*

E-Commerce Bidding App *Optimum Tech*

Full-stack bidding marketplace where customers post items for sale and users place bids. Built the entire Laravel REST API backend for iOS and Android apps, with a Vue.js admin dashboard, Twilio SMS notifications, and social login via Google OAuth and Facebook Login.

Stack: *Laravel, Vue.js, MySQL, REST APIs, Twilio, Google OAuth, Facebook Login*

Django E-Commerce Platform *Freelance*

Built a complete e-commerce web application in Python using Django, covering product catalog, cart, order management, and user authentication. Delivered end-to-end as a freelance project.

Stack: *Python, Django, PostgreSQL, HTML5, CSS3*

Certifications

- **AWS Cloud Practitioner Essentials:** Amazon Web Services
- **Project Management:** Great Learning
- **Python Programming:** Beginner to Advanced - Udemy

Education

Bachelors Computer Science

Graduated: July 2022

Riphah International University, Pakistan
